## Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Schoolwide Program
The Purpose of this plan, as a Title 1 Schoolwide Program, is to promote improved academic outcomes and improved social/emotional well-being of all students, in order to maximize student empowerment and choices for college and career.

Hemlock Elementary is a school wide Title 1 funded campus and is nestled in a quaint neighborhood in the northern part of Vacaville, California. The campus is home to two district programs: ACE (Alternative Cooperative Education) and TAP/RISE (autism programs). These programs blend with our core Hemlock students to create an inclusive and creative school environment we are proud of. Hemlock is home to an average of 400 students.

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.
In order to meet the requirements of ESSA and align Hemlock's programs and goals with the Vacaville Unified LCAP, Hemlock's SPSA will focus on programs for closing the achievement gap, increasing academic outcomes and improving school culture. The School Site Council has analyzed the academic performance and discipline data of all student groups and has considered the effectiveness of key elements of the instructional and social/emotional programs for students failing to meet academic performance index and adequate yearly progress growth targets. As a result, it has adopted the following school goals, related actions, and expenditures to raise the academic performance of students not yet meeting state standards.

## Comprehensive Needs Assessment Components

Data Analysis

Please refer to the School and Student Performance Data section where an analysis is provided.

## Surveys

This section provides a description of surveys (i.e., Student, Parent, Teacher) used during the schoolyear, and a summary of results from the survey(s).
A need assessment was sent to families utilizing electronic means. 44 responses were received. The needs assessment survey is composed of 20 questions separated into two categories, questions for staff and questions for parents/guardians. All parent questions focus on academic learning in the areas of English Language Arts and Mathematics. All staff questions focus on content knowledge and access to materials for English language arts and mathematics. There is an additional question requesting the responder to share any general suggestions or concerns. The survey results are shared with the School Site Council and used to explore possible goal areas.

## Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.
Administrators provide regular informal walkthroughs of all classrooms while on campus. Staff is provided feedback of their instruction and have the opportunity to meet with administrators if needed. Teachers and other staff who require formal observation were visited 1-2 times during the 2022-2023 school year to be evaluated in accordance with VUSD evaluation protocols and VTA contract. Teachers who are in their first two years of teaching are also offered the opportunity to be observed by their induction mentors to provide effective feedback and growth opportunities. Teachers in year one and year two are also observed by district administrators during their probationary period.

## Analysis of Current Instructional Program

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

## Standards, Assessment, and Accountability

Use of state and local assessments to modify instruction and improve student achievement (ESEA) The 2021-2022 school year was the first return of Smarter Balanced testing for our students postCOVID. As such, the results were used to discuss the impact that the pandemic had on student achievement and on testing comfort, understanding of the testing protocol and procedures and next steps to help our students regain pre-pandemic achievement results on CAASPP.

Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)
Students district wide take district created benchmarks using STAR for both ELA and Math. In addition student in K-2 take the DRA and BPST. These date points are used to group students for RtI and provided targeted instruction in small groups.

## Staffing and Professional Development

## Status of meeting requirements for highly qualified staff (ESEA)

All teachers at Hemlock are highly qualified based on state and federal standards.

Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)
All teachers hold valid California credentials and have been provided the professional development needed to deliver the curriculum adopted by the district.

Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)
Staff is offered professional development in the areas of adopted curriculum, content area standards (including ELD standards) and other trainings as needed in the area of Social Emotional Learning, Project Based Learning, Classroom Management and Technology Development.

Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)
VUSD employs district instructional coaches/experts in the areas of English Language Arts, Math and Science, and Technology. Teachers can consult with the coaches and invite them to campus for model lessons, curriculum development and ongoing support. In addition these coaches/experts attend staff meetings and provide PD at the discretion of the administrator.

Teacher collaboration by grade level (kindergarten through grade eight [K-8]) and department (grades nine through twelve) (EPC)
Teachers collaborate on Wednesdays, the district provides an early release day. Teachers use this time to discuss students who are having academic concerns and to work on interventions as a team. They have access to support providers and administration during these meetings to provide input and additional supports.

## Teaching and Learning

Alignment of curriculum, instruction, and materials to content and performance standards (ESEA) Kindergarten- 6th grade has district and state adopted curriculum that is adhered to throughout the instructional day that are aligned to Common Core State Standards.

Adherence to recommended instructional minutes for reading/language arts and mathematics ( $\mathrm{K}-8$ ) (EPC)
Instructional minutes for specific grades:
Kindergarten - 200 minutes a day ( 5 days a week)
$1 \mathrm{st}-3 \mathrm{rd}-305$ minutes a day ( 4 days a week) and 240 minutes ( 1 day a week)
4th-6th- 325 minutes a day ( 4 days a week) and 245 minutes ( 1 day a week)

Lesson pacing schedule ( $\mathrm{K}-8$ ) and master schedule flexibility for sufficient numbers of intervention courses (EPC)
The master schedule at Hemlock allows for targeted intervention time as well as UA (Universal Access) for all students based on their needs in the areas of reading and math. Students who are English Language Learners also have a designated 30 minutes of ELD class daily.

Availability of standards-based instructional materials appropriate to all student groups (ESEA)
Adequate numbers of standards based instructional materials are available to all students at Hemlock Elementary. The Williams Act Visit within the first month of school ensures that we have an appropriate number of texts and materials for our students to access during their instructional day.

Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)
Vacaville Unified School District currently utilizes current approved and adopted curriculum for all content areas:
English Language Arts: McMillian-McGraw Hill (Treasures) for grades K-2, Benchmark Workshop for grades 3-5 and College Board (Springboard) for grade 6.
Math: Math in Focus in grade K, Houghton Mifflin Harcourt (GO Math) for grades 1-6
Science: Houghton Mifflin
Social Science: Houghton Mifflin

## Opportunity and Equal Educational Access

Services provided by the regular program that enable underperforming students to meet standards (ESEA)
We provide 30 to 45 min. targeted intervention groups for K-6th grade students in both ELA and Math daily. As well as 30 min . targeted intervention in SEL once a week.

Evidence-based educational practices to raise student achievement
Core alignment with ELD standards
MTSS
Guided Reading and use of data backed intervention materials
PLC

## Parental Engagement

Resources available from family, school, district, and community to assist under-achieving students (ESEA)
Spanish Speaking Parent Liaison in the front office who supports students and their families.
Re-engagement specialist who supports attendance at the district level
Family Resource Center through VVPD
Food Closet
School Supply Closet
Clothing Closet
YSS counseling interns through VVPD

Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)
Parents are important components of the academic program and school community at Hemlock. Parents regularly volunteer in classes, participate in PTO and the ACE Program Parent Board. Parents actively participate in ELAC and SSC. Parents and community members attend our school community activities and participate in building a strong school community through activities like Harvest Fest, First Responder Day and Career Day

## Funding

Services provided by categorical funds that enable underperforming students to meet standards (ESEA)
We pay for additional para-educator hours in our intervention program to increase both reading and math intervention availability to support more students. We also spend categorical monies on a mental health therapist who can support students in being emotionally available to learn. We pay for a parent liaison who runs our food and school supply closets and assists our bilingual and Spanish speaking families with school needs and communication.

Fiscal support (EPC)

## Educational Partner Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

## Involvement Process for the SPSA and Annual Review and Update

Hemlock consulted the School Site Council in the development of this plan. A working session was conducted in person and on Zoom on May 10, 2023. Hemlock received further input from the ELAC group via an electronic poll on April 28, 2023. The feedback received from these two groups is represented in the final document. A full needs assessment survey was sent by electronic means to all staff and families as a means to receive feedback from the full community about the needs and priorities for spending for the 2023-2024 school year. The results of this survey are represented in the final document.

## Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

## Title 1 School Level Parent Involvement Policy and Home School Compact

Hemlock Elementary and ACE Program<br>TITLE I<br>SCHOOL - PARENT - STUDENT COMPACT

The School Parent Compact will describe school-parent compact will be jointly developed with parents and family members and the compact outlines how parents, the entire school staff, and students will share in the responsibility for improved student academic achievement and the means by which the school and the parents will build and develop partnerships to help children achieve the State's high standards (ESSA, Section 1116(d)).

## School

The school understands the importance of the school experience to every student and their role as educators and models. Therefore, the school agrees to carry out the following responsibilities to the best of their ability:
Provide high-quality curriculum and instruction in a supportive and effective learning environment that enables the children served under this part to meet the challenging State academic standards Address the importance of communication between teachers and parents on an ongoing basis through, at a minimum-
parent-teacher conferences, at least annually, during which the compact shall be discussed as the compact relates to the individual child's achievement
frequent reports to parents on their children's progress;
reasonable access to staff, opportunities to volunteer and participate in their child's class, and observation of classroom activities; and
Ensuring regular two-way, meaningful communication between family members and school staff and, to the extent practicable, in a language that family members can understand. (required) (ESSA, Section 1116(d)(1-2))
Treat each child with dignity and respect
Strive to address the individual needs of the student
Acknowledge that parents are vital to the success of child and school
Provide a safe, positive and healthy learning environment
Assure every student access to quality learning experiences
Assure that the school staff communicates clear expectations for performance to both students and parents

## Parent

The parent understands that participation in his/her student's education will help his/her achievement and attitude. Therefore, the parent will continue to carry out the following responsibilities to the best
of his/her ability:
Volunteering in their child's classroom
Supporting their child's learning
Participating, as appropriate, in decisions relating to the education of their child and positive use of extracurricular time
Create a home atmosphere that supports learning
Send the student to school on time, well-fed, and well-rested on a regular basis
Attend school functions and conference
Encourage their child to show respect for all members of the school community and school property Review all school communications and respond promptly

## Student

The student realizes education is important. They are the one responsible for Their own success.
Therefore, the agrees to carry out the following responsibilities to the best of their ability:
Get to school on time every day
Develop a positive attitude toward school
Be responsible for completing homework on time
Be cooperative by carrying out the teacher's instructions and ask for help when needed Do daily work that is neat and reflects the student's best effort
Be respectful to all school members and to school property

## Conclusions based on this data:

1. More than half our students are at or near standard for reading. This would indicate that our core program and tier 2 interventions are working.
2. In all areas of ELA CAASPP testing 4th grade has the highest percentage of students below standard. This would indicate that more scaffolds and more targeted intervention are needed at this grade level.

## Conclusions based on this data:

1. Roughly $90 \%$ of our students are in the nearly met or below standard categories. This suggests that we need to continue to work on how we deliver core math instruction and we need to remain focused on recoupment strategies.
2. Sixth grade has more students in the below standard category than any other grade. This suggests that we need to focus interventions and scaffolds in this grade level to help students access grade level core.

## School and Student Performance Data

## Student Population

For the past two years, many state and federal accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on LEAs, schools, and students. Beginning with the 2021-22 school year, the requirements to hold schools and districts accountable for student outcomes has returned with the release of the 2022 California School Dashboard (Dashboard). The Every Student Succeeds Act is requiring all states to determine schools eligible for support. Similarly, under state law, Assembly Bill (AB) 130, which was signed into law in 2021, mandates the return of the Dashboard using only current year performance data to determine LEAs for support. Therefore, to meet this state requirement, only the 2021-22 school year data will be reported on the 2022 Dashboard for state indicators. (Data for Change [or the difference from prior year] and performance colors will not be reported.)

This section provides information about the school's student population.

## Conclusions based on this data:

1. Socio economically disadvantaged students make up over $40 \%$ of our student population. This means that community resources, social emotional supports, and basic needs must be continually addressed to make sure all students are ready to learn.
2. Our second largest group is students with disabilities. This means we must keep mainstreaming and high rigor at the heart of our special education programs so that students, regardless of disability, have access to rigorous learning and the opportunity to reach their full potential.
3. We have a significant Hispanic population at Hemlock. We need to ensure that communication continues to be available in English and Spanish to provide families with equal access to information regarding their child's education.

## School and Student Performance Data

## Overall Performance

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the Dashboard Communications Toolkit.

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

## Conclusions based on this data:

1. Behavior and emotional need following the pandemic have been higher than ever for our school. We are actively adjusting our PBIS systems, continuing with SEL Rtl groups, and teaching daily SEL in every class in order to help lower behavior and get back to pre-pandemic levels.
2. Math and ELA are not both low and we need to continue working on expanding our Rtl systems and integrating basic skills practices into daily lessons to recoup learning lost during the pandemic.
3. Chronic Absenteeism continues to be an area of need for our site. We have made gains over the past few years, but continue to struggle with getting our families to make school attendance a priority.

## School and Student Performance Data

## Academic Performance <br> Mathematics

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the Dashboard Communications Toolkit.

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

This section provides number of student groups in each level.

Academics - ELA

## LEA/LCAP Goal

Providing high quality instruction and curricula that promote college and career readiness with academic interventions in place to eliminate barriers to student success.

## Goal 1

Recoup learning to pre-COVID 19 levels of students meeting grade level benchmarks.

## Identified Need

Based on internal data from the 2021-2022 school year, Hemlock has continues to experienced a higher number of students not making grade level benchmarks K-6 than in pre-COVID years. A continued focus on school wide intervention and good first teaching will need to occur in order to return to former levels of academic performance.

## Students to be Served by this Strategy/Activity

(Identify either All Students or one or more specific student groups)
All students will directly benefit from the data analysis and subsequent targeted interventions. All student data will be analyzed and all students will be provided instruction based on identified needs.

Strategy/Activity
During the 2023-2024 school year, Hemlock will conduct three data analysis days by grade span.
Data analysis will be held in the fall to form a baseline and initiate intervention and classroom
scaffolds, then again after each trimester to track progress and evaluate effectiveness. The data meetings will include the Principal, Rtl coordinator, Intervention and ELD teachers, grade level teachers, and Special Education staff. The focus of the meetings will be to review data, and plan both for first instruction and leveled supports based on what individual student data as well as grade level trends show.

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

## ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.
Rtl was fully implemented during the 202-2023 School year. However, the social emotional impact of COVID 19 and continued staffing shortages experienced this school year did have an impact on our program and results. Staffing shortages did impact services when substitute staff could not be found and groups had to be cancelled as a result. Student social emotional need and the resulting behavior impacted the effectiveness of instructional blocks and lengthened the time needed for transitions and redirection, shortening the amount of time students attended to instruction. Progress was made in 1st, 4th, 5th and 6th grades. Kinder and 3rd saw a drop in percentage of student who were proficient.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.
All budgeted areas were implemented and spent as expected. There were no differences between what was planned and what we implemented.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.
This goal will be continued as written.

Student Engagement: attendance

## LEA/LCAP Goal

## Goal 3

Increase student engagement in school. Engagement shall be measured by student attendance rates, student needs survey results, and student participation in PBIS.

## Identified Need

Hemlock continues to struggle with poor student attendance rates. Our chronic rate is higher than ever, suffering from the attendance fallout of COVID 19. In addition our student survey data suggests that students lack a sense of ownership over the school facility and a lack of knowledge around self-regulating and problem solving strategies.

## ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.
SEL groups continued in our Rtl model and the team worked twice weekly with tier three students in small group instruction in targeted areas of need to support behavior and social emotional regulation. A student survey was conducted this year and will be used to expand and fine tune our PBIS practices. Our MHC continued whole class lessons in mindfulness and emotional regulation. Staff fully implemented SuperFlex and the 20 lessons were taught twice this year in every class. While chronic absenteeism continues to be an area of concern we dropped $7.2 \%$ this year, which is good progress.

Teachers regularly utilize embedded EL supports throughout their instructional day. Providing access to rigorous direct instruction. Parent Liaison produces a monthly parent newsletter in Spanish and sends it out all of our families of EL students, which includes all school wide communication as well as ELAC and EL information. In addition, the Parent Liaison attends ELAC, makes personal calls of invitation to all qualifying families, follows up with families who need support and coordinates food, school supply, and clothing donations to support attendance, student need and school engagement.

## School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

## 1 School Principal

2 Classroom Teachers
1 Other School Staff
4 Parent or Community Members

| Name of Members | Role |
| :--- | :--- |
| Jennifer Austin | Principal |
| Patty Wazielewski | Classroom Teacher |
| Alina Yemchuk | Classroom Teacher |
| Yanin Avila | Other School Staff |
| Zara Syed | Parent or Community Member |
| Brenna Boykin | Parent or Community Member |
| Betsy Wight | Parent or Community Member |
| Yasmin Cosens | Parent or Community Member |

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

## Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.
The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

## Signature Committee or Advisory Group Name

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on 5/10/23.
